Training Course: Effective Budgeting, Planning & Control

Training Course code: FI236258 From: 17 - 21 November 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 5500 € Euro

Introduction

Budgets are an essential financial tool, which aid, planning, decision making, resource allocation, co-ordination and control.

Without the necessary skills Budgets can be badly prepared and/or implemented leading to poor decisions, mis-use of vital resources, poor coordination and a lack of control or even too much control resulting in missed opportunities.

This program provides participants with the skills necessary for the effective preparation and implementation of budgets including the:

- Sales Budgets
- Production Budgets
- Cash Budgets
- Capital Budgets and
- Master Budget

Course Structure

This comprehensive program consists of two modules which can be booked as a 5 Day Training event, or as an individual, 3 or 2 Day courses.

Module 1 - [Preparing Budgets](#)

Module 2 - [Budget Management & Control](#)

Objective

Participants attending will:

- Develop the skills to Plan Budgets within a sound Strategic Plan
- Develop the skills to Prepare Budgets using:
 - Appropriate Forecasting Techniques including Time Series Models,
 - Exponential Smoothing, Regression and Correlation Analysis and

- Costing Methods such as Activity Based Costing
- Develop the skills to effectively implement Budgets by:
 - Becoming aware of the problems/limitations of budgets and the conditions required for their success
 - Integrating the budgeting process with the development of the company's long-term strategic vision
 - Identifying key performance indicators for effective and focused decision making
 - Performing "What If" and Sensitivity Analysis to evaluate the implications of changes in major factors of production and consumption
 - Recommending various courses of action to manage the implications of "What If" and Sensitivity Analysis.
 - Implementing advanced planning and control techniques such as
 - Variance Analysis into the budgeting process
 - Providing a decision support structure that provides timely and useful information to decision-makers
- Develop the skills to effectively Manage & Control the budgeting process by:

In particular, the following will find it very helpful:

- Financial managers, finance controllers treasurers, and inventory managers
- Senior managers with direct responsibility for financial management and control
- Accountants, sale and purchase managers and managers responsible for the relationship with banks
- Any manager, at a medium and senior level, who is a part of the financial decision-making team.
- New interns and trainees with finance-related responsibilities.
- Department heads, process owners, administrative personnel associated with budget management, financial and technical professionals, sales and marketing professionals, project managers, and anyone who needs to understand how to develop cost projections for their department, projects.

Process

The program is highly interactive. Delegates will be actively engaged in an on-going case study applying different planning, forecasting, and analysis techniques in a work situation to ensure the development of understanding and the transfer of skills. Participants will also be given a detailed set of handouts and examples.

Benefits

- You will be able to further your professional skills.

- You will be able to make more informed and hence better planning, budgeting and forecasting decisions using various models and software.
- You will make improved budgeting decisions which will increase your importance to your organization
- You will be better placed to liaise effectively with other departments on planning, forecasting & budgeting matters.

Results

- Participants will not only be able to analyze various business problems but will also be able to evaluate various courses of action and make sound recommendations for action using leading software
- The participants will become more aware of the importance of effective planning, budgeting and forecasting making the budgeting process more cost-effective
- New skills for strategic planning will help to make more informed and hence better management decisions.
- Exposure to different techniques will help the company to efficiently forecast everything from cash to capital projects.
- The knowledge gained can be shared amongst other departments of the company.

The Course Competencies of Effective Budgeting, Planning & Control

- Integrating the planning process with the budgeting cycle
- Forecasting using various models including Time Series Models, Exponential
- Smoothing, Regression and Correlation Analysis using Excel and leading software/models
