Training Course: E-Procurement implementation and management

Training Course code: PU236266 From: 17 - 21 November 2025 Venue: Paris (France) - Training Course Fees: 5500 € Euro

Introduction

In today's rapidly evolving digital economy, organizations are under pressure to optimize procurement operations, increase transparency, and achieve cost efficiency. Electronic procurement E-Procurement has emerged as a strategic solution that leverages technology to streamline purchasing processes, improve supplier relationships, and enhance organizational competitiveness. This training program, designed by [Global Horizon Training Center](#), provides participants with advanced knowledge and practical tools to implement, manage, and optimize E-Procurement systems. By integrating E-Procurement into organizational workflows, participants will be able to ensure efficiency, compliance, and long-term value creation.

Objectives

By the end of this training, participants will be able to:

- Understand the foundations and principles of E-Procurement.
- Implement E-Procurement systems and integrate them with existing processes.
- Analyze organizational needs to select appropriate E-Procurement solutions.
- Manage supplier relationships through digital platforms.
- Ensure compliance, transparency, and accountability in procurement operations.
- Optimize purchasing decisions using data-driven insights.
- Monitor and continuously improve E-Procurement systems for sustainable success.

Organizational Impact

Implementing knowledge gained from this program will help organizations:

- Reduce costs through automation and digital optimization.
- Increase transparency and accountability in procurement processes.
- Improve supplier collaboration and performance monitoring.

- Align procurement practices with corporate strategy and governance.
- Minimize risks related to fraud, errors, and inefficiency.
