Training Course: IOSH Managing Safely

Training Course code: HE7007 From: 24 - 28 August 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300
€ Euro

Introduction

The IOSH Managing Safely program is designed for managers in all sectors to develop the skills and knowledge necessary to manage health and safety effectively in their workplace. Safety is a core managerial responsibility, with both legal and corporate obligations requiring managers to prevent accidents, protect employees, and maintain safe work environments.

This course enables managers to assess risks, introduce controls, investigate incidents, monitor safety performance, and understand the components of a Safety Management System SMS. It also emphasizes environmentally responsible practices and sustainable safety strategies.

Objectives

By the end of the course, participants will be able to:

- Understand, assess, and control workplace risks
- Comprehend managerial responsibilities for safety
- Investigate accidents and incidents effectively
- Measure and monitor safety performance
- Implement environmentally responsible and sustainable practices

Target Audience

- Managers and supervisors at all levels
- Team leaders and department heads
- Safety officers and coordinators
- Operational managers responsible for employee safety
- Professionals seeking IOSH certification or improving workplace safety competence
