Process Safety Management Compliance*

*29 November - 3 December 2026  
Cairo (Egypt)*

## Conference: Process Safety Management Compliance

Conference code: CO8174 From: 29 November - 3 December 2026 Venue: Cairo (Egypt) - Conference Fees: 4100 € Euro

### Introduction

Most Process Organisations have implemented an integrated approach to managing health, safety, and environmental [HSE] risks through an HSE Management System. This program aims to highlight the benefits of such a system and its elements, based on industry best practices. This program is designed to help delegates to demonstrate compliance with the organization's HSE Management System, special focus is on risk management and promoting a positive safety culture. In this program you will learn to:

- Appreciate your role and responsibilities within the HSE Management System
- Enhance your knowledge of elements, sub-elements, and expectations of the HSE- MS
- Gain necessary skills in carrying out a practical risk assessment and incident investigation and analysis
- Develop a plan for promoting a positive safety culture

### Objectives

- Describe the company's HSE Management Systems
- How to demonstrate compliance with elements, sub-elements, and expectations of the HSE- MS
- Understand the role of risk management in terms of risk assessment and incident investigation and analysis
- Appreciate the role of human error in risk assessment and contribution to incidents
- To identify weaknesses in the HSE- MS through analysis of root-causes for incidents
- Be familiar with the requirements of HSG65, BS 8800, OHSAS 18000, ISO 9000 and ISO 14000
- Be able to prepare action plans, setting targets and measuring performance
- Appreciate the value of promoting positive safety culture within your organization

### Target Audience

- HSE managers, safety officers, and environmental specialists in industrial organizations
- Process safety engineers and operational safety professionals
- Plant managers, operations supervisors, and production leaders in high-risk industries
- Risk management and compliance professionals responsible for HSE systems
- Maintenance and reliability engineers involved in safe operation of equipment

- Quality assurance and integrated management system professionals
- Internal auditors and HSE system auditors
- Engineers and technical staff involved in hazard identification and incident investigation
- Consultants specializing in HSE management systems and regulatory compliance
- Professionals working under ISO 9001, ISO 14001, OHSAS 18000 / ISO 45001 frameworks
