Training Course: Advanced Sector Planning and Resource Management

Training Course code: SC235545 From: 8 - 12 November 2026 Venue: Amman (Jordan) - Training Course Fees: 4550 € Euro

Introduction:

The "Advanced Sector Planning and Resource Management" program is designed to equip professionals with the strategic skills needed to plan effectively, optimize resources, and support sustainable sector growth in both public and private organizations.

The program focuses on modern planning methodologies, resource allocation strategies, forecasting techniques, and risk management practices that enhance operational efficiency and support long-term organizational objectives. Participants will gain practical insights into balancing sector priorities, improving decision-making, and aligning resources with strategic goals.

Through real-world case studies and interactive discussions, the program also highlights leadership, policy development, collaboration, and change management as key drivers of successful sector planning and sustainable resource management.

Objectives:

By the end of this program, participants will:

- Understand advanced sector planning methodologies and frameworks.
- Gain insights into efficient resource allocation and optimization techniques.
- Learn strategic planning approaches for sector-specific needs.
- Develop leadership skills for managing sector-wide operations.
- Analyze case studies to apply resource management in real-world scenarios.

Target Audience:

- Senior executives in planning and resource management roles
- Department heads and managers responsible for sector operations
- Professionals in public sector planning, policy, and infrastructure development
- Resource management and planning consultants
- Strategic planners involved in large-scale projects

Outlines:

Day 1:

Introduction to Advanced Sector Planning

- Overview of sectoral planning frameworks
- Key challenges in sector planning and management
- Resource analysis: Assessing sector needs and gaps
- Strategic alignment of resources with sector goals
