Training Course: Navigation for Non-Navigators and Maritime Technical knowledge for GMs and CEOs

Training Course code: MM234898 From: 20 - 24 September 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 4410 € Euro

Introduction

In today's maritime and logistics-driven economy, senior leaders are increasingly required to make strategic decisions that rely on a solid understanding of maritime operations and navigation principles. While they may not be directly involved in technical operations, **General Managers, Executives, and CEOs** must possess sufficient knowledge to interpret risks, evaluate performance, and make informed decisions.

This program, developed by **Global Horizon Training Center**, is specifically tailored for non-technical leaders in the maritime sector. It bridges the gap between technical maritime operations and executive decision-making by providing a clear, practical understanding of navigation, vessel operations, port systems, and regulatory frameworks.

Participants will gain essential maritime knowledge, enabling them to confidently engage with technical teams, optimize operational strategies, and strengthen organizational performance.

Course Objectives

By the end of this program, participants will be able to:

- Understand the fundamentals of maritime navigation and ship operations
- Interpret key navigational concepts and operational terminology
- Gain insight into vessel systems and onboard operations
- Understand port and terminal operations from a strategic perspective
- Evaluate operational risks and safety considerations
- Interpret performance indicators and operational reports
