## Conference: Cost Accounting Techniques & Skills For Businesses & Industries

Conference code: CO9370 From: 13 - 17 September 2026 Venue: Amman (Jordan) - Conference Fees: 4550 € Euro

### Introduction

This interactive seminar enhances skills in financial statement analysis, investment appraisal, and performance measurement, aiming to boost growth and profitability. Participants will learn to identify and address problem areas while managing risks in today's uncertain environment. The seminar covers the value of financial reports, key financial information for management, and tools for evaluating performance. It also focuses on evaluating investment proposals and managing financial risks. Practical case studies will help delegates apply their learning to real-world business challenges.

### Objectives

- Read and understand their organization's Annual Financial Report
- Evaluate their firm's financial performance
- Understand and use analytical tools and techniques in practical case-study situations.
- Identify business risks, and consider how these should be managed.
- Appreciate the importance of new investments in maintaining growth and competitiveness, and how these investments should be evaluated.
- Improve their management skills and increase their value to the organization
- Understand capital investment decisions

### Methodology

The seminar will be conducted along with workshop principles with formal lectures, case studies, and interactive worked examples. Relevant case studies will be provided to illustrate the application of each tool in an operations environment. Each learning point will be reinforced with practical exercises. Discussion in groups will promote the exchange of concepts and ideas.

### Organizational Impact

- Awareness of the relevance and importance of financial statements
- Understanding of the tools and techniques that can monitor and improve performance
- Ability to identify problem areas, and suggest realistic solutions
- Ability to identify and analyze financial risks, and how these can be effectively managed

- The financial knowledge to make better, more informed, decisions

## Personal Impact

- Exchange of ideas and knowledge with other professionals
- Increased awareness of techniques in financial analysis and capital appraisal
- A better understanding of the language of finance and accounting
- Knowledge and understanding of business risk
- Increased ability to identify problem areas
- Increased confidence to tackle new situations
