Amsterdam (Netherlands)*

Training Course: ISO 9001:2015 Quality management systems

Training Course code: MA234769 From: 26 October - 6 November 2026 Venue: Amsterdam (Netherlands) - Training Course Fees: 9450 € Euro

Introduction

The adoption of a Quality Management System QMS based on ISO 9001:2015 is a strategic decision that enables organizations to enhance performance, ensure consistent service delivery, and achieve sustainable development. This program is designed in line with the latest international standards to provide participants with a comprehensive understanding of quality management principles and system implementation.

The course focuses on helping organizations meet customer and regulatory requirements, improve operational efficiency, and enhance customer satisfaction. It also emphasizes risk-based thinking, process optimization, and continuous improvement as key drivers of quality excellence.

By the end of the program, participants will understand how to implement, manage, and improve a QMS that aligns with organizational objectives and international best practices.

Course Objectives

By the end of this program, participants will be able to:

- Understand the quality management principles outlined in ISO 9000
- Apply process-based approaches to improve organizational performance
- Ensure consistency in meeting customer and regulatory requirements
- Evaluate processes in terms of value creation
- Use data and information to drive process improvement
- Apply risk-based thinking in quality management systems
- Understand the integration of ISO 9001 with other management system standards
- Implement and maintain an effective Quality Management System

Target Audience

This program is designed for:

- Quality Managers and Quality Assurance Professionals
- Internal Auditors and Compliance Officers
- Operations and Process Improvement Professionals
- Project Managers and Team Leaders
- Professionals involved in ISO implementation and certification
- Anyone responsible for maintaining quality standards within an organization

Outline
