Training Course: Documents and Records Management

Training Course code: OM12358 From: 5 - 9 October 2026 Venue: Vienna (Austria) - Training Course Fees: 6050 € Euro

Introduction

This program, designed by Global Horizon Training Center, addresses the growing need for effective management of organizational information and records.

In today's data-driven environment, organizations face challenges in identifying, organizing, protecting, and retaining critical information. With increasing regulatory requirements and risks such as cyber threats and data exposure, establishing a structured records management and document control system is essential. This course provides practical approaches to developing and implementing effective systems that ensure compliance, security, and operational efficiency.

Objectives

By the end of this program, participants will be able to:

- Develop a comprehensive records management program to enhance information value
- Implement document control methods to secure and protect critical data
- Apply relevant regulations and standards for compliance
- Identify and mitigate risks associated with poor information management
- Develop an information asset register to classify and manage key organizational data

Target Audience

- Records and Information Managers
- Compliance Officers and Internal Auditors
- Legal and Privacy Professionals
- Information Security and IT Managers
- Enterprise Content Management Specialists
- Administrative and Office Managers
- Professionals involved in document control and records management
