

*Training Course:  
Certified Risk Manager*

*6 - 10 July 2026  
Amsterdam (Netherlands)*

## Training Course: Certified Risk Manager

Training Course code: MA234820 From: 6 - 10 July 2026 Venue: Amsterdam (Netherlands) - Training Course Fees: 5775  
€ Euro

### Introduction

Effective risk management is a critical success factor in delivering projects on time, within budget, and in alignment with organizational objectives. The [Project Risk Management Professional PMI-RMP® Preparation Program](#) is designed to equip participants with the knowledge, tools, and techniques required to manage project risks systematically and prepare for the internationally recognized PMI-RMP certification.

This program provides a comprehensive understanding of project risk management processes in line with global standards such as the PMBOK Guide. Participants will learn how to develop risk management plans, build and maintain risk registers, and perform both qualitative and quantitative risk analyses.

### Course Objectives

By the end of this program, participants will be able to:

- Understand PMI-RMP® certification requirements and exam structure
- Define key risk management concepts and frameworks
- Develop and implement project risk management plans
- Create and manage comprehensive risk registers
- Identify project risks using structured techniques
- Perform qualitative risk analysis using probability and impact assessment
- Conduct quantitative risk analysis to evaluate project uncertainty
- Develop effective risk response strategies aligned with project priorities
- Monitor and control risks through audits, reassessments, and performance analysis
- Establish KPIs for risk monitoring and reporting
- Apply leadership and communication skills in risk management environments

### Target Audience

This program is designed for:

- Risk Managers
- Project Managers
- Project Management Office PMO Members
- Project Sponsors
- Functional Managers
- Senior Management
- Professionals preparing for PMI-RMP® certification
