Training Course: The Strategic Buyer MBA

Training Course code: LS4078 From: 21 September - 2 October 2026 Venue: Geneva (Switzerland) - Training Course Fees: 6050 € Euro

Introduction

In today's highly competitive and rapidly evolving business environment, procurement and purchasing functions play a strategic role in driving organizational performance, cost optimization, operational efficiency, and supply chain resilience. Modern buyers are no longer limited to transactional purchasing activities; they are strategic business partners responsible for supplier management, negotiation, risk mitigation, value creation, and long-term procurement planning.

The Strategic Buyer MBA program is designed to provide participants with advanced strategic procurement and purchasing knowledge, combining business management principles with modern procurement practices. The program focuses on strategic sourcing, supplier relationship management, negotiation, financial awareness, contract management, supply chain integration, risk management, and leadership skills required for high-performing procurement professionals.

Participants will gain practical tools and strategic frameworks to improve purchasing performance, strengthen supplier partnerships, optimize procurement processes, and contribute effectively to organizational growth and competitiveness.

Course Objectives

By the end of this training program, participants will be able to:

- Understand the strategic role of procurement and purchasing within organizations.
- Apply strategic sourcing and supplier management techniques effectively.
- Improve negotiation and contract management capabilities.
- Analyze procurement costs and financial impacts professionally.
- Develop procurement strategies aligned with organizational objectives.
- Manage supplier relationships and procurement risks effectively.
- Apply market analysis and category management techniques.
- Improve procurement performance and operational efficiency.
- Strengthen leadership, communication, and decision-making skills within procurement functions.
- Support organizational sustainability and supply chain resilience initiatives.
