Training Course: Assets and properties in facilities

Training Course code: EN235005 From: 30 August - 10 September 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 6950 € Euro

Introduction

Effective management of assets and properties is essential for maintaining operational efficiency, reducing lifecycle costs, and ensuring the sustainability of facilities. Organizations must adopt structured approaches to manage physical assets, optimize performance, and align maintenance and operational strategies with business objectives.

This program, designed by Global Horizon Training Center, equips participants with comprehensive knowledge and practical skills to manage assets and properties within facilities over a structured 10-day training, focusing on lifecycle management, maintenance strategies, and performance optimization.

Course Objectives

By the end of this program, participants will be able to:

- Understand asset and property management principles in facilities
- Develop asset lifecycle management strategies
- Implement maintenance planning and reliability practices
- Optimize facility performance and resource utilization
- Manage asset data, documentation, and records
- Apply risk management and compliance frameworks
- Improve cost efficiency and asset value
- Utilize performance metrics and asset management systems

Target Audience

This program is designed for:

- Facility Managers and Supervisors
- Asset Management Professionals
- Maintenance and Reliability Engineers
- Property and Operations Managers
- Technical Staff involved in facility operations
- Professionals responsible for infrastructure and asset performance
