Training Course: Mastering Compensation: Strategies for Salary Structure

Training Course code: HR1947 From: 31 August - 4 September 2026 Venue: Singapore - Training Course Fees: 6250 € Euro

Introduction

Compensation is one of the most powerful levers organizations have to influence **talent attraction, motivation, retention, and performance**. However, poorly designed salary structures can lead to inequity, dissatisfaction, and financial inefficiencies.

This program, developed by **Global Horizon Training Center**, provides a comprehensive and strategic approach to compensation management, with a strong focus on **salary structure design and optimization**. It integrates best practices in **job evaluation, market benchmarking, pay strategy, and reward systems**, enabling participants to build compensation frameworks that are both competitive and sustainable.

Through a blend of theory, real-world case studies, and practical exercises, participants will learn how to design and manage compensation systems that align with **organizational goals, financial constraints, and workforce expectations**.

Program Objectives

By the end of this training program, participants will be able to:

- Understand the strategic role of **compensation and salary structures**
- Identify key components of **effective compensation systems**
- Design and implement **competitive salary structures**
- Benchmark compensation against **market trends and industry standards**
- Communicate compensation frameworks with **transparency and fairness**
- Manage compensation budgets while maintaining **internal equity and external competitiveness**
- Apply **legal and regulatory requirements** in compensation practices
