Training Course: Problem Solving & Decision-Making Best Practices

Training Course code: MA234586 From: 26 - 30 October 2026 Venue: Amsterdam (Netherlands) - Training Course Fees: 5775 € Euro

Introduction

In today's complex and fast-paced work environment, professionals are constantly required to make decisions and solve problems that range from routine to highly complex. This program, developed by [Global Horizon Training Center](#), equips participants with structured approaches to problem-solving, critical thinking, and decision-making.

The course integrates logical, analytical, and creative thinking techniques, enabling participants to diagnose problems accurately, evaluate alternatives, and make sound decisions. Through practical tools and real-world applications, participants will enhance their ability to address challenges effectively and confidently in both professional and personal contexts.

Course Objectives

By the end of this program, participants will be able to:

- Build and enhance decision-making, critical thinking, and problem-solving skills
- Apply logical and creative approaches to solving complex problems
- Identify root causes using structured analytical tools
- Generate innovative solutions through creative thinking techniques
- Evaluate options and make effective, well-informed decisions
- Apply problem-solving frameworks to real workplace challenges
- Strengthen strategic thinking and decision-making capabilities
- Enhance credibility and confidence in decision-making

Target Audience
