## Training Course: Advanced Project & Construction Management

Training Course code: PC4101 From: 29 November - 10 December 2026 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel Training Course Fees: 6550 € Euro

### Introduction

In today's competitive construction and project environment, organizations face pressure to deliver on time, reduce costs, and maintain quality. This program equips participants with advanced skills to manage both contracts and projects effectively, from pre-contract planning through post-contract closeout, emphasizing risk management, dispute avoidance, and operational efficiency. Participants gain practical techniques for planning, execution, and leadership, enabling maximum profitability and performance.

### Course Objectives

By the end of this program, participants will be able to:

- Apply contractual and legal knowledge effectively in projects.
- Understand different types of agreements and project delivery systems.
- Increase commercial awareness to minimize risks and disputes.
- Conduct cash flow analysis and manage project budgets.
- Apply advanced scheduling and project control techniques.
- Handle proactive and reactive project management scenarios.
- Negotiate and resolve disputes efficiently.
- Implement best practices for world-class contract and project management.

### Target Audience

- Project Managers and Construction Managers
- Contract Managers and Administrators
- Procurement and Commercial Professionals
- Risk Managers in construction and project environments
- Engineers and Supervisors involved in project planning and execution

### Course Outline - 10 Days
