Fire Detection and Alarm Systems: Principles  
and Practice*

*4 - 8 May 2026  
Kuala Lumpur (Malaysia)*

## Training Course: Fire Detection and Alarm Systems: Principles and Practice

Training Course code: EN235466 From: 4 - 8 May 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6825 € Euro

### Introduction

Fire detection and alarm systems are critical components in safeguarding lives, assets, and operational continuity. As buildings and industrial environments become more complex, the need for reliable, standards-compliant detection systems has become essential.

This program, designed by Global Horizon Training Center, provides participants with the technical knowledge and practical understanding required to design, operate, maintain, and troubleshoot fire detection and alarm systems in accordance with international standards and best practices.

### Course Objectives

By the end of this program, participants will be able to:

- Understand the fundamentals of fire science and detection principles
- Identify different types of fire detection and alarm systems and their applications
- Interpret system design requirements based on international standards e.g., NFPA, BS, EN
- Design and configure fire alarm systems for various facilities
- Install, test, and commission fire detection systems effectively
- Diagnose faults and perform maintenance and troubleshooting
- Ensure compliance with safety regulations and codes
- Integrate fire alarm systems with other safety and building management systems

### Target Audience

This program is designed for:

- Electrical and Mechanical Engineers
- Fire Protection Engineers and Safety Officers
- Maintenance and Facility Management Professionals
- Technicians involved in installation and maintenance of fire alarm systems
- HSE Professionals and Risk Management Specialists
- Project Engineers and Supervisors in construction and industrial sectors

### Outline

#### Day 1: Fundamentals of Fire Detection Systems

- Basics of fire science fire triangle and fire behavior
- Fire risks in residential, commercial, and industrial environments
- Overview of fire detection and alarm systems
- Types of fire detectors: smoke, heat, flame, gas
- Detection technologies and operating principles
- Introduction to international codes and standards NFPA 72, BS 5839

#### Day 2: System Components and Design Principles

- Fire alarm system components: control panels, detectors, call points, sounders
- Conventional vs. addressable systems
- System architecture and zoning concepts
- Cable types, wiring methods, and installation requirements
- Designing fire alarm systems for different building types
- Documentation and system drawings

#### Day 3: Installation, Testing, and Commissioning

- Installation best practices and site considerations
- Device placement and spacing requirements
- Testing procedures and commissioning protocols
- Functional testing of detectors and alarm devices
- Documentation, checklists, and handover procedures
- Common installation errors and how to avoid them

#### Day 4: Operation, Maintenance, and Troubleshooting

- Routine inspection and maintenance schedules
- Preventive vs. corrective maintenance
- Troubleshooting system faults and false alarms
- Panel programming and configuration basics
- System upgrades and modifications
- Record keeping and compliance documentation

#### Day 5: Integration, Advanced Applications, and Safety Compliance

- Integration with fire suppression systems sprinklers, gas systems
- Interface with Building Management Systems BMS
- Emergency communication and evacuation systems
- Safety regulations and audit requirements
- Risk assessment and system optimization
- Case studies and real-world applications

## Registration form on the Training Course: Fire Detection and Alarm Systems: Principles and Practice

Training Course code: EN235466 From: 4 - 8 May 2026 Venue: Kuala Lumpur (Malaysia) - Training Course  
Fees: 6825 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

### Delegate Information

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

### Company Information

Company Name: .....  
 Address: .....  
 City / Country: .....

### Person Responsible for Training and Development

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

### Payment Method

- Please find enclosed a cheque made payable to Global Horizon
- Please invoice me
- Please invoice my company

### Easy Ways To Register

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :  
info@gh4t.com  
or training@gh4t.com

Complete & return the  
booking form with cheque  
to: Global Horizon  
3 Oudai street, Aldouki,  
Giza, Giza Governorate,  
Egypt.
