Introduction

The Project Professional MBA is an intensive programme designed to sharpen your management skills and focus on current best practices in project management. Delegates will cover management principles and the project life cycle, based on the Project Management Institute's [PMBOK® Guide](#).

Participants will learn to establish goals linked to stakeholder needs, manage and motivate teams, utilize strategic planning, apply project management tools, and implement proactive risk management for successful project delivery.

Programme Objectives

By the end of the programme, participants will be able to:

- Establish project goals and objectives directly aligned with stakeholders' expectations
- Develop and use [Work Breakdown Structures WBS](#) to plan projects effectively
- Estimate project time, resources, and costs using proven techniques
- Monitor and control project progress using robust project control systems
- Identify and manage project risks using qualitative and quantitative techniques
- Improve managerial, leadership, and negotiation skills in a project context
- Apply advanced scheduling methods to ensure timely project delivery
- Integrate stakeholder management into strategic project planning
- Handle both proactive and reactive project management techniques
