Training Course: The Complete Course on Project Management

Training Course code: PC4020 From: 8 - 12 November 2026 Venue: Manama (Bahrain) - Training Course Fees: 4725 € Euro

Introduction

Project Management is no longer just an individual skill—it is a core organizational competency. This course provides a complete framework for managing projects of any type, combining practical tools, management techniques, and leadership skills. Participants will gain a deep understanding of both the science and art of project management, enabling them to successfully plan, execute, monitor, and close projects within time, budget, and quality constraints.

Course Objectives

By the end of the program, participants will be able to:

- Apply project management principles to deliver projects on time, within budget, and to specifications
- Master planning, scheduling, and project control techniques
- Develop effective performance measures and reporting systems
- Enhance interpersonal and leadership skills for managing project teams
- Analyze project risk and implement mitigation strategies
- Utilize cost estimating and budgeting methods for effective project financial management

Target Audience

This program is designed for:

- Project Managers, Assistant Project Managers, and Project Coordinators
- Team Leaders and Department Heads involved in project execution
- Professionals responsible for scheduling, budgeting, and monitoring projects
- Any individual involved in project planning, risk management, or project control

Course Outline

Day 1 - The World of Project Management

- Project lifecycle model
- Classic and modern project constraints and parameters
- Project management maturity
- Selecting projects to meet organizational goals
- Aggregating projects into programs and portfolios

- Establishing a Project Management Office PMO
