Training Course: Human Element in Shipping & Competencies Matrix

Training Course code: MM234706 From: 16 - 20 August 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 4410 € Euro

Introduction

The human element is one of the most critical factors influencing safety, performance, and operational efficiency in the maritime industry. Studies have shown that a significant percentage of maritime incidents are linked to human factors such as fatigue, communication breakdowns, lack of competency, and poor decision-making.

This program, developed by [Global Horizon Training Center](#), provides a comprehensive understanding of the human element in shipping and the development and application of competency matrices. It focuses on enhancing human performance, strengthening safety culture, and ensuring that personnel possess the required skills and competencies to perform their roles effectively.

Participants will gain practical insights into competency frameworks, performance assessment, training alignment, and human factor risk mitigation, enabling organizations to improve safety outcomes and operational excellence.

Course Objectives

By the end of this program, participants will be able to:

- Understand the role of the human element in maritime safety and operations
- Identify key human factors affecting performance fatigue, stress, communication
- Develop and apply competency matrices for maritime roles
- Align training and development with competency requirements
- Assess and evaluate workforce competencies
- Improve communication, teamwork, and decision-making
- Mitigate human-related risks in marine operations
- Strengthen safety culture and organizational performance
