Training Course: The Complete Course on Inventory Management Training

Training Course code: PC4110 From: 1 - 5 November 2026 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel
Training Course Fees: 4350 € Euro

Introduction

This course emphasizes the critical role of Inventory Management in achieving lean, efficient, and cost-effective operations. Participants will learn to optimize inventory investment while maintaining customer service levels, manage stock categories, and understand the causal link between inventory practices and overall business performance. The course addresses challenges such as excessive stock, high investment in spares, and poor availability, offering practical solutions to improve inventory control.

Key Benefits Include:

- Reduction in inventory investment
- Improved customer satisfaction
- Reduced operational costs of inventory management
- Prioritization and categorization of Stock Keeping Units SKUs

Course Objectives

By the end of this course, participants will be able to:

- Understand the importance of inventory and its impact on profitability
- Identify the most appropriate management methods for each inventory item
- Apply best practices to optimize inventory investment
- Understand the inventory value chain
- Select appropriate inventory management techniques for different item types
