Training Course: Spreadsheet Skills for Planning, Forecasting & Budgeting

Training Course code: FI2044 From: 17 - 21 August 2026 Venue: Geneva (Switzerland) - Training Course Fees: 6050 € Euro

Introduction

Planning, Forecasting & Budgeting are 3 of the most important functions in business. Performed properly they can lead to exceptional success. Yet many people do not use the tools available to them to their best advantage. In this course, we will leverage the power of Excel to demonstrate how to improve your forecasting, planning, and budgeting. By developing better spreadsheets & models, planning is more accurate, forecasting is more precise & budgeting is more attainable. And the time to develop these is dramatically reduced.

Forecasts, plans, and budgets may be improved through extensive what-if analysis to find key factors for management to monitor. Furthermore, these tools can be easily transferred into business plans which provide the guide to the overall performance of the firm.

Techniques you will master include:

- goal seek
- scenario manager
- sensitivity analysis
- solver
- decision models

The course's usefulness is enhanced by the fact that it is designed to apply to both Excel® 2003 & 2007 - to enable you to use it more effectively.

The course demonstrates every technique discussed using Excel® templates that will be provided to all delegates so bring your laptop to optimize the experience.
