Cairo (Egypt)*

Training Course: Security Management, Planning & Asset Protection

Training Course code: HE8253 From: 8 - 12 November 2026 Venue: Cairo (Egypt) - Training Course Fees: 4100 € Euro

Introduction

This course highlights the importance of integrating security management with business operations to protect assets while supporting growth. Participants will learn to identify and evaluate risks from internal and external sources and implement safeguards like Crisis Management and Business Continuity Plans. The program emphasizes essential tools such as risk analysis, security surveys, and vulnerability assessments to secure executive support. Delegates will gain expertise in designing effective security plans, aligning security functions with corporate goals, and meeting international standards. The seminar prepares professionals to lead teams and manage security projects successfully.

Objectives

- Best management practice and how to apply these principles
- Planning security projects and implementing these effectively
- Creating a protection program to protect intellectual property in addition to physical assets
- Running a proactive professional security team
