## Training Course: Business Process Management Advanced Masterclass

Training Course code: MA234797 From: 9 - 13 August 2026 Venue: Doha (Qatar) - Training Course Fees: 4725 € Euro

### Introduction

In today's competitive and fast-changing business environment, organizations must continuously optimize their processes to improve efficiency, reduce costs, and enhance customer value. The **Business Process Management Advanced Masterclass** is designed to provide participants with advanced knowledge and practical tools to analyze, design, improve, and govern business processes across the organization.

This program focuses on aligning process management with strategic objectives, leveraging methodologies such as process modeling, performance measurement, and continuous improvement. It also incorporates modern approaches including digital transformation, automation, and data-driven decision-making to ensure sustainable operational excellence.

By the end of the program, participants will be able to lead process improvement initiatives, design high-performing workflows, and implement governance frameworks that drive organizational efficiency and innovation.

### Course Objectives

By the end of this program, participants will be able to:

- Understand advanced concepts and frameworks of Business Process Management BPM
- Analyze and redesign business processes for improved efficiency and effectiveness
- Apply process modeling techniques such as BPMN
- Develop process performance metrics and KPIs
- Implement process governance and control frameworks
- Identify opportunities for process automation and digital transformation
- Apply continuous improvement methodologies Lean, Six Sigma principles
- Manage change associated with process transformation
- Align business processes with organizational strategy

### Target Audience
