Training Course: Understanding Finance to Influence Strategic Decisions

Training Course code: FI2026 From: 28 September - 2 October 2026 Venue: Geneva (Switzerland) - Training Course
Fees: 6050 € Euro

Introduction

A good understanding of strategic analysis and decision-making and the links between these and finance enables all managers at every level to make better strategic decisions and achieve improved performance.

This highly interactive seminar has been designed to build on the theoretical framework by developing practical tools and techniques for analyzing and evaluating strategic alternatives and making strategic financial decisions.

Objectives

The objectives of this seminar are to enable delegates to:

- Develop strategic thinking, and use the strategic management process to develop missions and objectives and carry out strategic analysis and decision-making
- Forecast financial data using various Excel® models
- Understand the structure of the income statement, balance sheet, and cash flow statement, and analysis of the cash operating cycle, for improved financial performance, and better management of working capital and cash flow
- Identify the alternative sources of finance and financial or capital structure, and evaluate the models of optimum capital structure and minimization of the weighted average cost of capital WACC
- Use the technique of discounted cash flow DCF for capital budgeting and evaluation of capital project investment, using net present value NPV, internal rate of return IRR, equivalent annual cost EAC, and the profitability index PI
- Use the techniques of uncertainty analysis and risk analysis and develop appropriate risk management tools of insurance and hedging of interest rates and foreign currency exchange rates.
