Training Course: Strategic Thinking, vision & Planning

Training Course code: LS1096 From: 14 - 18 December 2026 Venue: London (UK) - Training Course Fees: 5775 € Euro

Introduction

Too often, company executives and professionals spend most of their time addressing day-to-day problems. They react to challenges rather than focusing on creating a vision and strategic plans for the company's future. This program aims to shift that mindset from reactive management to proactive strategic planning and implementation.

In this course, you will develop the skills to transform your management approach from merely responding to events to actively creating the outcomes you desire. This is essential for anyone involved in:

- Developing a new company/division/department
- Improving performance amidst major changes in business conditions
- Balancing financial and non-financial objectives
- Growing an existing company/division/department
- Planning your own career with a strategic approach

Objectives

By the end of this program, participants will be able to:

- Develop a comprehensive plan to achieve personal and organizational goals and apply strategic thinking across the business.
- Set clear goals and define where both the individual and the organization want to be.
- Develop a strategic plan for their organization company/division/business unit/team and for themselves personally.
- Identify key principles and mechanisms that drive successful implementation of strategy.
- Create measurable action plans that lead to success by identifying, measuring, and tracking critical success factors.
