

*Training Course:
Risk, Security Threat, and Vulnerability
Assessment (TRVA)*

22 - 26 November 2026

Cairo (Egypt)

Holiday Inn & Suites Cairo Maadi, an IHG Hotel

Training Course: Risk, Security Threat, and Vulnerability Assessment (TRVA)

Training Course code: HE234806 From: 22 - 26 November 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 4100 € Euro

Introduction:

The Risk, Security Threat, and Vulnerability Assessment TRVA is a crucial process designed to identify, evaluate, and prioritize security threats and vulnerabilities within an organization. By assessing risks and vulnerabilities, organizations can implement effective mitigation strategies, strengthening their overall security posture. This assessment is vital for enhancing resilience against both physical and cyber threats and safeguarding organizational assets and operations.

Objectives:

- Identify potential security threats and vulnerabilities.
- Evaluate the likelihood and impact of identified risks.
- Prioritize risks and develop appropriate mitigation strategies.
- Enhance the organization's ability to respond to security threats.
- Improve the overall security framework to protect assets, personnel, and information.

Target Audience:

- Security Managers and Coordinators responsible for risk management and security operations.
- IT and Cybersecurity Professionals focused on identifying and mitigating digital threats and vulnerabilities.
- Risk Managers responsible for assessing and reducing risks in organizational processes.
- Operations Managers ensuring security is integrated into day-to-day activities.
- Facility and Safety Managers looking to strengthen physical security measures.
- Consultants and Advisors in security and risk management.

Outlines:

Day 1: Introduction to Risk and Security Threats

- Understanding risk and security threats.
- Types of threats: physical, cyber, operational.
- Overview of the vulnerability assessment process.
- Importance of proactive risk management.

Day 2: Identifying Security Vulnerabilities

- Identifying internal and external security vulnerabilities.
- Techniques for vulnerability scanning and assessment.
- Understanding systemic weaknesses.

Day 3: Risk Assessment Methods

- Introduction to risk assessment frameworks.
- Qualitative vs quantitative risk assessment methods.
- Tools and techniques for risk evaluation.

Day 4: Prioritizing Risks and Developing Mitigation Strategies

- Evaluating the likelihood and impact of risks.
- Creating risk mitigation plans.
- Risk acceptance vs elimination strategies.

Day 5: Implementing Security Improvements

- Security policies and procedures.
- Developing a comprehensive security action plan.
- Monitoring and review of implemented strategies.
- Case studies and practical exercises.
