## Training Course: Certified Data Management Professional

Training Course code: SC8110 From: 30 August - 3 September 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 4100 € Euro

### Introduction

In the modern digital economy, data has become one of the most valuable assets for organizations. Effective data management ensures accuracy, reliability, accessibility, and security of information—supporting strategic decision-making and driving business value. However, without proper governance and structure, organizations face risks of poor data quality, compliance issues, and inefficiencies.

The Certified Data Management Professional training program, designed by Global Horizon Training Center, provides participants with a solid foundation in data management principles, frameworks, and best practices aligned with global standards. The program integrates practical tools, real-world case studies, and interactive workshops to prepare professionals for managing data as a critical enterprise asset.

### Objectives

By the end of this program, participants will be able to:

- Understand the principles and scope of enterprise data management.
- Apply global frameworks such as DAMA-DMBOK to structure and govern organizational data.
- Ensure data quality, consistency, and compliance with industry regulations.
- Manage metadata, master data, and reference data effectively.
- Develop strategies for data security, privacy, and lifecycle management.
- Support organizational decision-making through reliable data governance practices.

### Target Audience

This program is designed for:

- Data management and governance professionals.
- Database administrators and data architects.
- IT managers and business analysts.
- Compliance, risk, and information security professionals.
- Project managers handling data-driven initiatives.

- Anyone pursuing certification in data management.
