Training Course: Mini MBA: Accounting & Finance

Training Course code: FI2028 From: 2 - 6 November 2026 Venue: Amsterdam (Netherlands) - Training Course Fees: 5775
€ Euro

Introduction

This course offers an in-depth overview of the accounting and finance world. Part 1 emphasized the internal workings of the finance/control function as it communicates with external and internal constituencies to provide information for decision making under uncertainty. Part 2 emphasizes the capital markets impact on corporate finance, risk, and governance.

No preparation is necessary except to bring an open mind and a budget document or other financial documents of interest.

By combining techniques with analysis, problems, and examples with real case studies, and supporting theories the course provides delegates with key finance terminology and practice. This course not only presents the key financial tools generally used but also explains the broader context of how and where they are applied to obtain meaningful answers. It provides a conceptual backdrop both for the financial/economic dimensions of strategic business management and for understanding the nature of financial statements, analyzing data, planning and controlling.

The course is targeted at providing a university-quality "MBA" overview of finance/accounting, planning/control, risk management, and corporate governance. Participants are expected to be high-potential learners seeking the next level of learning. Additional bibliographies, readings, and spreadsheets will be provided as takeaways.
