Training Course: Data Governance Fundamentals

Training Course code: SC6051 From: 11 - 15 May 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300 €

Introduction

Data governance is essential for organizations to manage data assets effectively, ensure regulatory compliance, and achieve strategic objectives. This [Data Governance Fundamentals](#) training program provides participants with a strong foundation in data governance principles, frameworks, and best practices. It equips them with the knowledge and skills to establish data governance strategies that promote data quality, security, and usability across their organizations.

Target Audience

- Data governance and management professionals.
- IT managers and business analysts.
- Compliance officers and regulatory specialists.
- Data stewards and custodians.
- Professionals interested in implementing or enhancing data governance frameworks.

Objectives

By the end of the program, participants will:

1. Understand the principles and importance of data governance.
2. Explore frameworks and models for effective data governance.
3. Learn strategies for ensuring data quality, security, and compliance.
4. Develop skills to establish roles, responsibilities, and processes for data governance.
5. Create a roadmap for implementing or improving data governance in their organizations.

Outlines

Day 1:

Introduction to Data Governance

- Key Topics:

- What is Data Governance and Why is it Important?
- Key Drivers for Data Governance: Compliance, Quality, and Strategy.
- Components of a Data Governance Program.
