Training Course: How to Build your Organization's Knowledge

Training Course code: MA9200 From: 22 June - 3 July 2026 Venue: London (UK) - Training Course Fees: 5775 € Euro

Introduction

In today's knowledge-driven economy, an organization's ability to create, capture, share, and utilize knowledge is a key driver of competitive advantage and long-term success. Knowledge is one of the most valuable organizational assets, yet it often remains underutilized or poorly managed.

This program, developed by [Global Horizon Training Center](#), provides participants with practical frameworks and tools to systematically build and manage organizational knowledge. It focuses on creating a culture that encourages knowledge sharing, developing effective knowledge systems, and integrating knowledge management into daily operations.

Participants will learn how to transform individual expertise into organizational capability, enhance collaboration, and ensure that knowledge is retained, shared, and continuously developed.

Course Objectives

By the end of this program, participants will be able to:

- Understand the importance of knowledge as a strategic asset
- Identify different types of organizational knowledge tacit and explicit
- Develop strategies to capture and retain knowledge
- Build a culture that encourages knowledge sharing
- Design and implement knowledge management systems
- Enhance collaboration and communication across teams
- Integrate knowledge management into performance systems
- Support continuous learning and organizational development
