Training Course: The best practices in leadership and the development of integrated management systems

Training Course code: LS235513 From: 14 - 18 December 2026 Venue: London (UK) - Training Course Fees: 5775 €

Introduction

In today's complex and rapidly evolving business environment, effective leadership combined with integrated management systems is essential for achieving organizational excellence and sustainability. This program, designed by [Global Horizon Training Center](#), equips participants with advanced leadership approaches and modern management practices that go beyond traditional administrative methods.

The program focuses on enhancing leadership effectiveness, strengthening communication and team management capabilities, and leveraging data-driven decision-making and modern technologies. It also emphasizes building integrated systems that align people, processes, and performance to improve efficiency, productivity, and organizational competitiveness.

Objectives

By the end of this program, participants will be able to:

- Differentiate between leadership and management and understand their strategic importance
- Apply key leadership principles and develop a clear leadership vision
- Enhance communication and dialogue skills for effective interaction
- Prioritize tasks and improve operational effectiveness
- Develop and empower employees to exceed performance expectations
- Build flexible, creative, and high-performing teams
- Strengthen internal and external relationship management
- Implement continuous improvement and development practices

Target Audience

This program is designed for:

- General Managers and Executives
- Mid-level Managers and Supervisors
- Professionals in leadership, administration, and project management
- Employees seeking to enhance leadership and management skills

Program Outline

Day 1: Leadership Foundations and Vision Development

- Leadership vs. management: key differences and importance
- Overview of major leadership theories and their application
- Leadership, ethics, and organizational values
