## Training Course: Operational Audit, Improvement Planning & Management

Training Course code: MA9361 From: 19 - 23 October 2026 Venue: Paris (France) - Training Course Fees: 5775 € Euro

### Introduction

Operational audits are essential tools for evaluating the efficiency, effectiveness, and performance of organizational processes. In today's competitive environment, organizations must go beyond compliance audits and focus on identifying improvement opportunities that drive value and optimize operations.

This program, developed by [Global Horizon Training Center](#), provides participants with a comprehensive framework for conducting operational audits and translating findings into actionable improvement plans. It emphasizes performance evaluation, process analysis, risk identification, and the development of sustainable improvement initiatives.

Participants will gain practical skills to assess operations, identify inefficiencies, and implement structured improvement strategies that enhance productivity, quality, and organizational performance.

### Course Objectives
