Training Course: Local Content Management in the Oil and Gas Industry

Training Course code: MA234828 From: 5 - 9 October 2026 Venue: Geneva (Switzerland) - Training Course Fees: 6050 € Euro

Introduction

Local Content has become a critical pillar in the sustainable development of the oil and gas sector, focusing on the utilization of local workforce, development of national skills, technology transfer, and strengthening of local supply chains. The [Local Content Management in the Oil and Gas Industry](#) program, designed by Global Horizon Training Center, provides participants with a comprehensive understanding of how to design, implement, and manage effective local content strategies within complex project environments.

This program explores how organizations can align local content requirements with business objectives while maximizing value creation for both the company and the host country. It addresses key components such as workforce nationalization, supplier development, procurement strategies, and integration of local content into project planning and execution.

Course Objectives

By the end of this program, participants will be able to:

- Understand the concept and strategic importance of local content in the oil and gas industry
- Identify key factors influencing local content provisions and contractual obligations
- Develop and implement effective local content strategies and management plans
- Assess the impact of local content requirements on project execution, procurement, and workforce planning
- Integrate local content into procurement and supply chain strategies
- Manage local content regulations across different jurisdictions
- Apply methodologies for measuring and monitoring local content performance
- Participate effectively in contract tendering, negotiation, and execution
- Enhance supplier development and workforce nationalization initiatives
- Align local content strategies with corporate and national development goals

Target Audience

This program is designed for:

- Local Content Managers and Specialists
- Capacity Building and Workforce Development Officers
- Human Resources Managers
- Operations and Logistics Managers
