Training Course: Driving Business Performance with Social Media

Training Course code: MA1072 From: 16 - 20 August 2026 Venue: Doha (Qatar) - Training Course Fees: 4725 € Euro

Introduction

In today's digital landscape, social media has become a powerful driver of business performance, enabling organizations to connect with customers, build brand awareness, and generate measurable results. When used strategically, social media platforms can enhance marketing effectiveness, improve customer engagement, and support business growth.

This program, developed by [Global Horizon Training Center](#), equips participants with the knowledge and tools to leverage social media as a performance-driven business asset. It focuses on aligning social media strategies with organizational goals, optimizing content and engagement, and using analytics to measure and improve results.

Participants will gain practical insights into how to transform social media from a communication tool into a strategic platform for driving business success.

Course Objectives

By the end of this program, participants will be able to:

- Understand the role of social media in business performance
- Develop effective social media strategies aligned with business goals
- Create engaging and targeted content
- Enhance customer engagement and brand positioning
- Utilize social media analytics and performance metrics
- Optimize campaigns for better ROI
- Manage online reputation and customer interactions
- Integrate social media into overall business strategy
