## Training Course: Simplification of Work Procedures

Training Course code: PS1036 From: 14 - 18 September 2026 Venue: Cape Town (South Africa) - DoubleTree by Hilton Cape Town - Upper Eastside Training Course Fees: 6350 € Euro

### Introduction

All business activities are governed by work procedures. Much effort is spent on looking at how to establish and carry out procedures, and, while this is important, it sometimes overshadows the importance of effectively capturing and documenting the optimum method of carrying out the procedure.

This practical course shows how to design, develop, manage, control, implement, and monitor work procedures and associated Management System documents such as work instructions, forms, labels, and tags. It will also show how to analyze and simplify procedures.

#### Unique features of this seminar:

- Presents a wholistic approach to typical Management System documentation structures, creation, implementation, management, and review
- Focus on the need for clarity and how to achieve it
- Hands-on procedure and other documentation writing
- Explains how to analyze procedures in order to simplify them

Training will involve a high level of interaction and delegate participation. The intention is that the trainer will explain issues, using real examples, but will then involve the delegates in discussion, examples, and workshops, using the information provided.

### Course Objectives

- Explain the purpose and advantages of a documented Management System.
- Explain a typical Management System documentation structure.
- Provide an understanding of how management documentation policies, procedures, work instructions, etc are developed.
- Consider who needs to be involved in the process of developing such documentation.
- Explain the sections in each type of document and the purpose and content of each section.
- Show how to write clearly each type of document, with specific emphasis on procedures.
- Show how to use process flowcharts in procedure writing.
- Explain how to analyze process flow charts with the aim of simplifying the procedure.

It will be of benefit to:

- All staff involved in writing procedures or other work process-related documents.
- Those managing the procedure/Management System documentation
- Those involved in auditing work procedures/documentation

## Target Audience

This program is designed for:

- Quality assurance QA and quality control QC professionals responsible for documentation and compliance systems.
- Process improvement, continuous improvement, and operational excellence specialists.
- ISO coordinators and management system representatives involved in ISO 9001 and related standards implementation.
- Engineers and supervisors responsible for developing, updating, or managing work procedures and instructions.
- Document controllers and administrative staff managing organizational documentation systems.
- Operations and production managers seeking to standardize and optimize work processes.
- Internal auditors and compliance officers responsible for reviewing procedures and ensuring system integrity.

## Course Outlines
