Training Course: Environmental Management Systems

Training Course code: EN9463 From: 31 May - 4 June 2026 Venue: Dubai (UAE) - Training Course Fees: 5830 € Euro

Introduction

As concern grows for continually improving environmental performance and protecting the environment, organizations are increasingly turning their attention to the environmental impacts of their business activities, products, and services. The environmental performance of an organization is of importance to internal and external interested parties. Achieving sound environmental performance requires an organizational commitment to a systematic approach and, to continual improvement of an Environmental Management System EMS.

This Environmental Monitoring and Modelling training course provides delegates with an opportunity to gain skills and knowledge to build, implement and continually improve the performance of an Environmental Management System EMS.

Objectives

Delegates will learn how to:

- Understand types of environmental aspects and their environmental impacts
- Understand requirements of newly revised ISO 14001:2015 standard
- Develop and implement an Environmental Management System EMS
- Plan for obtaining ISO 14001:2015 certification from a certifying authority
- Identify all waste stream types and opportunities for reducing costs of waste

Organisational Impact

- The organisation will benefit from the key financial savings as a direct result of implementing an effective environmental management system
- The organisation will also benefit from being able to identify the environmental aspects and impacts, so reducing the risk of environmental incidents occurring
- Knowledge of how certification to ISO 14001:2015 can provide the organisation with a positive marketing advantage over its competitors

Personal Impact

- Delegates will be able to better understand the nature of environmental aspects and the associated impacts of the organisation's operational activities

- Delegates will understand the purpose and role of the international standard for environmental management ISO 14001:2015
