

*Training Course:
Environmental Management Systems*

*20 - 24 July 2026
Kuala Lumpur (Malaysia)*

Training Course: Environmental Management Systems

Training Course code: EN9463 From: 20 - 24 July 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6825 € Euro

Introduction

Environmental Management Systems EMS provide organizations with a structured framework to manage environmental responsibilities, ensure regulatory compliance, and improve sustainability performance. Implementing an effective EMS helps reduce environmental impact, optimize resource use, and enhance corporate reputation.

This program, designed by Global Horizon Training Center, equips participants with the knowledge and practical skills required to develop, implement, and manage Environmental Management Systems in line with international standards such as ISO 14001.

Course Objectives

By the end of this program, participants will be able to:

- Understand the principles and structure of Environmental Management Systems
- Interpret ISO 14001 requirements and implementation steps
- Identify environmental aspects and impacts
- Develop environmental policies and objectives
- Implement monitoring, auditing, and reporting processes
- Ensure compliance with environmental regulations
- Apply continuous improvement strategies
- Support sustainability and environmental performance initiatives

Target Audience

This program is designed for:

- Environmental and Sustainability Managers
- HSE and Compliance Professionals
- Quality and Audit Personnel
- Facility and Operations Managers
- Engineers involved in environmental management
- Professionals responsible for ISO 14001 implementation
