Training Course: Governance, Risk & Compliance Professional

Training Course code: MA234836 From: 20 - 24 July 2026 Venue: London (UK) - Training Course Fees: 5775 € Euro

Introduction

In today's complex regulatory landscape, organizations must adopt an integrated approach to **Governance, Risk Management, and Compliance GRC** to ensure sustainable performance, regulatory adherence, and ethical business conduct. The **Governance, Risk & Compliance GRC: Integrated Frameworks and Best Practices** program, designed by Global Horizon Training Center, equips participants with the knowledge and practical tools required to design, implement, and enhance GRC frameworks across their organizations.

This intensive and highly practical program focuses on aligning governance structures, risk management practices, and compliance obligations into a cohesive system that supports strategic decision-making and operational resilience. It emphasizes that risk is not merely a threat to be avoided, but a strategic opportunity that can drive innovation, competitive advantage, and organizational growth.

Participants will explore how to build a strong compliance culture, establish clear accountability structures, and effectively manage regulatory requirements. The program also covers key areas such as breach and incident management, compliance project implementation, stakeholder engagement, and ethical governance practices.

By the end of the program, participants will be able to integrate GRC principles into their organization's strategy, enhance risk awareness, and strengthen relationships with regulators and stakeholders.

Course Objectives

By the end of this program, participants will be able to:

- Understand the core concepts of governance, risk management, and compliance
- Analyze the regulatory environment and its impact on organizations
- Identify high-risk areas and compliance obligations within their organization
- Apply a risk-based approach to managing compliance and audit activities
- Understand the role and responsibilities of compliance officers and GRC teams
- Develop and implement an integrated GRC strategy and framework
- Strengthen organizational culture in relation to ethics, risk, and performance
- Design and implement effective GRC processes and controls
- Utilize risk-based auditing techniques to enhance assurance and oversight

Target Audience

This program is designed for:

- Executives and Board Members

- Internal Auditors
- Compliance Officers and Managers
- Governance and Risk Professionals
- Legal and Regulatory Professionals
- Company Secretaries
- IT Professionals involved in GRC systems
