Training Course: Internet Business Applications for Managers

Training Course code: MA9341 From: 26 - 30 October 2026 Venue: Cape Town (South Africa) - DoubleTree by Hilton Cape Town - Upper Eastside Training Course Fees: 6350 € Euro

Introduction

In today's digital economy, managers must understand how to leverage internet-based technologies to enhance business performance, improve decision-making, and drive innovation. Organizations increasingly rely on online platforms, digital tools, and data-driven systems to remain competitive and responsive.

This program, developed by [Global Horizon Training Center](#), provides managers with a comprehensive understanding of internet business applications and their strategic impact. It focuses on practical tools and technologies that support operations, communication, marketing, and data analysis, enabling participants to effectively integrate digital solutions into their management practices.

Course Objectives

By the end of this program, participants will be able to:

- Understand the role of internet technologies in modern business
- Identify key internet-based applications used in organizations
- Leverage digital tools to improve communication and collaboration
- Apply e-business and e-commerce concepts in management
- Utilize data and analytics for informed decision-making
- Enhance digital marketing and online presence strategies
- Manage cybersecurity risks and data protection concerns
- Integrate internet applications into business operations
