Training Course: Project Management, Scheduling & Compliance

Training Course code: PC4091 From: 19 - 30 October 2026 Venue: Singapore - Training Course Fees: 10000 € Euro

Introduction

This program covers the full project life cycle and integrates best practices from the **PMBOK® Guide**. Participants learn to establish project goals aligned with stakeholder needs, use proven project management tools, and proactively manage risks. The program emphasizes both technical [hard] and leadership [soft] skills necessary for effective project delivery, cost control, scheduling, and compliance.

Course Objectives

By the end of this program, participants will be able to:

- Establish project goals and objectives directly linked to stakeholders' needs
- Develop and use work breakdown structures WBS
- Define realistic and measurable objectives to ensure successful outcomes
- Estimate project durations, resources, and costs using proven techniques
- Establish a project control system and monitor progress
- Identify, evaluate, and manage project risks using a step-by-step approach
- Recognize threats and opportunities and assess their impact on the project
- Overcome psychological barriers to risk in stakeholders

Target Audience

- Project Managers
- Project Team Members
- Project Controllers and Planners
- Functional Managers involved in projects
- Senior Management overseeing projects
- Any professional seeking to enhance project management, scheduling, and compliance skills
