## Training Course: Implementing and Auditing Developing Consultant Level Capability

Training Course code: MA9141 From: 14 - 18 September 2026 Venue: Barcelona (Spain) - Training Course Fees: 5775 € Euro

### Introduction

In today's compliance-driven and performance-focused environment, organizations require professionals who can not only implement management systems effectively but also audit, evaluate, and continuously improve them. Developing consultant-level capability enables individuals to lead implementation projects, provide expert guidance, and ensure alignment with international standards and best practices.

This program, developed by [Global Horizon Training Center](#), is designed to build advanced competencies in both implementation and auditing. It equips participants with the methodologies, tools, and practical skills required to design, implement, assess, and improve management systems across various domains such as quality, environmental, or operational systems.

Participants will gain hands-on knowledge to perform gap analyses, manage implementation projects, conduct audits, and provide consultancy-level recommendations that drive organizational excellence.

### Course Objectives

By the end of this program, participants will be able to:

- Understand the principles of management system implementation and auditing
- Develop consultant-level skills for advising organizations
- Conduct gap analysis and readiness assessments
- Design and implement management systems effectively
- Plan and execute internal and external audits
- Evaluate compliance with standards and regulatory requirements
- Identify non-conformities and recommend corrective actions
- Provide strategic improvement recommendations
- Manage implementation and audit projects professionally

### Target Audience

This program is designed for:

- Consultants and aspiring consultants
- Internal and external auditors
- Quality, HSE, and compliance professionals
- Managers responsible for system implementation
- Engineers and technical professionals
- Professionals seeking to develop auditing and consultancy expertise
