Training Course: Health Care Management & Administration (MHA)

Training Course code: MA234587 From: 9 - 13 November 2026 Venue: Tbilisi (Georgia) - Training Course Fees: 5775 € Euro

Introduction

This program, developed by [Global Horizon Training Center](#), is designed to enhance the capabilities of healthcare professionals in medical administration and hospital management. It provides participants with a solid understanding of medical terminology, administrative functions, and the effective management of healthcare operations.

The course focuses on developing leadership, communication, and decision-making skills required to manage healthcare staff, processes, and resources efficiently. It also addresses modern challenges in healthcare delivery, including accessibility, quality of care, and system efficiency, enabling participants to contribute to improved patient outcomes and organizational performance.

Course Objectives

By the end of this program, participants will be able to:

- Understand roles and responsibilities in medication management and administration
- Apply essential knowledge and skills for safe and effective medication practices
- Ensure compliance with healthcare standards and patient safety requirements
- Analyze healthcare delivery systems, including economic and accessibility factors
- Improve communication and coordination among healthcare professionals
- Manage hospital operations, staff, and resources effectively
- Enhance quality control and patient care standards
- Apply best practices in healthcare administration and management

Target Audience

This program is designed for:

- Senior and Executive-Level Hospital Staff
