Training Course: Fundamentals of Risk Management (FoRM)

Training Course code: MA234885 From: 25 - 29 May 2026 Venue: London (UK) - Training Course Fees: 5775 € Euro

Introduction

In today's volatile and complex business environment, effective risk management is a fundamental driver of organizational resilience and sustainable success. The **Fundamentals of Risk Management FoRM** program provides participants with a structured and practical foundation in identifying, assessing, and managing risks across organizational functions.

This program is aligned with internationally recognized standards, particularly **ISO 31000**, and reflects global best practices in enterprise risk management ERM. It is designed to support professionals in understanding how risk impacts strategy, operations, and decision-making processes.

Through a highly interactive learning approach incorporating case studies, real-world scenarios, and practical exercises, participants will develop the skills required to implement effective risk management frameworks. The course emphasizes both minimizing potential threats and leveraging opportunities to enhance organizational value.

By the end of the program, participants will have a solid understanding of risk management principles and the confidence to contribute to building a proactive, risk-aware culture within their organizations.

Course Objectives

By the end of this program, participants will be able to:

- Understand the key concepts, principles, and terminology of risk management
- Recognize the importance of risk management in achieving organizational objectives
- Identify, analyze, and evaluate risks using structured tools and techniques
- Apply risk assessment methodologies such as risk registers, risk matrices, and bow-tie analysis
- Develop effective risk treatment and mitigation strategies
- Understand risk appetite, tolerance, and their role in decision-making
- Monitor and review risk management processes effectively
- Communicate and report risks clearly to internal and external stakeholders
- Understand the relationship between risk management, audit, and compliance

Target Audience

This program is designed for:

- **Operational and Support Managers** who need to understand risk within their functional areas
- **Senior Executives and Decision-Makers** seeking to integrate risk into strategy and governance
- **Individuals New to Risk Management** aiming to build confidence and foundational knowledge

- Professionals Entering the Risk Field who require structured ERM understanding
- Risk, Audit, and Compliance Professionals looking to strengthen integrated practices
- Individuals Seeking Refresher Training to enhance their knowledge and skills
- Students and Certification Candidates, including those preparing for programs by Institute of Risk Management
