Training Course: Project, Health, Safety & Environment Review (PHSER)

Training Course code: HE234664 From: 14 - 18 September 2026 Venue: Kuala Lumpur (Malaysia) - Training Course
Fees: 6300 € Euro

Introduction

This course is designed to enhance the Health, Safety, and Environmental HSE standards of personnel working across different companies. It provides structured rules, procedures, and safe practices to ensure a working environment free from conditions that could contribute to accidents, injuries, or illnesses. The course also outlines a project-specific HSE plan to guide the safe execution of operations.

Objectives

By the end of this program, participants will be able to:

- Apply HSE knowledge in project reviews and assessments.
- Recognize HSE methods through hazard identification, assessment programs, and hazard communication.
- Conduct incident investigations and reporting, identifying environmental and procedural failures.
- Use proper equipment, PPE, ladders, and rigging to mitigate risks.
- Implement a structured monthly inspection and safety-check program.

Target Audience

- Process Engineers
- HSE Engineers
- Technical Safety Specialists
- Operations Representatives
- HSE Staff
