Strategic Problem Solving for
Technical Consultants*

*13 - 17 July 2026
London (UK)*

Training Course: Strategic Problem Solving for Technical Consultants

Training Course code: SC235556 From: 13 - 17 July 2026 Venue: London (UK) - Training Course Fees: 6300 € Euro

Introduction

Technical consultants are often tasked with resolving complex and strategic challenges that require more than just a technical fix—they demand innovative solutions that align with the organization's broader goals. The "Strategic Problem Solving for Technical Consultants" program is designed to equip consultants with advanced problem-solving methodologies that integrate technical expertise with strategic thinking. This program empowers participants to approach technical challenges from a strategic perspective, ensuring solutions not only address immediate issues but also support long-term business objectives.

Participants will learn to diagnose complex technical problems, implement solutions that account for organizational strategy, and leverage their technical knowledge in decision-making processes. Through real-world case studies and interactive workshops, attendees will practice applying these methods to strategic problems, ensuring they can offer high-value consulting services to their clients or organizations.

Objectives

- Apply strategic problem-solving frameworks to technical challenges.
- Integrate technical expertise with broader organizational goals.
- Develop innovative and sustainable solutions to complex technical problems.
- Enhance decision-making skills by balancing technical and strategic considerations.
- Improve client or internal stakeholder relations through effective problem resolution.
- Utilize data analytics and scenario planning in strategic problem solving.

Target Audience

- Technical consultants and senior technical experts.
- IT consultants, engineers, and solution architects.
- Managers and leaders in technical roles.
- Professionals involved in technical advisory or project management.
- Technical support staff seeking to enhance their strategic problem-solving skills.
