Training Course: Talent & Succession Management Masterclass

Training Course code: HR3042 From: 1 - 5 November 2026 Venue: Doha (Qatar) - Training Course Fees: 4725 € Euro

Introduction

In an era where competitive advantage is increasingly driven by **human capital**, organizations must move beyond traditional HR practices and adopt a **strategic, differentiated approach to talent management**. The reality is clear: high-performing individuals deliver exponentially greater value than average performers—making the attraction, development, and retention of top talent a **business-critical priority**.

As emphasized by Chartered Institute of Personnel and Development, high-performing employees significantly outperform average counterparts, while leaders like Steve Jobs have highlighted the disproportionate impact of exceptional talent. Similarly, Jim Collins reinforces that success is not about having people—but having the right people.

This Masterclass, designed by **Global Horizon Training Center**, provides a structured and practical roadmap to building a **talent-driven organization**. It covers the full talent lifecycle—from strategic alignment and talent attraction to development, retention, and succession planning—using modern frameworks such as the **Talent Pipeline Model** and advanced succession methodologies.

Participants will gain the tools and insights needed to **create a talent powerhouse**, ensuring that the right individuals are identified, nurtured, and positioned to drive long-term organizational success.
