Training Course: The 3 Phases of Contract Management in Energy Sector

Training Course code: PC235398 From: 18 - 29 October 2026 Venue: Manama (Bahrain) - Training Course Fees: 7350 € Euro

Introduction

Commercial and business relationships are based on contracts of one type or another. These are becoming increasingly complex, and as trade becomes ever more international, the differences in approach between different legal and contracting systems become a greater issue. All business professionals need to understand what a contract does and does not require them and the other party to the contract to do, and the consequences for both parties of any failure. This course is intended to provide an understanding of contracting in the English language but in an international context.

Course Objectives of The 3 Phases of Contract Management in Energy Sector.

To enable delegates to improve their understanding of the role of contracts within a business, and how strategies can be developed to improve the commercial outcomes and the management of contracts. The course will also allow delegates to consider the latest international thinking in dispute resolution, and how this can be used in everyday business life to reduce conflict and the costs and delays associated with more conventional approaches.

Course Benefits of The 3 Phases of Contract Management in Energy Sector.

- Develop an understanding of the role of contracts in the business world
- Explain how contracts are structured
- Examine current thinking on contracting structures in an international context
- Improve understanding of the main terms and conditions of contracts

Assessment leading to ILM Endorsed Certification:

Learners have to demonstrate in a work-based assignment a clear understanding of the role of contracts within a business by identifying a contractual problem within the workplace and examine ways to process or resolve it. The problem may relate to the inception, negotiation, structure, content, management, breach or termination of the contract or any variety of these. Learners should focus on showing:

- Ability to understand commercial issues relating to the contract
- Choice of potential contracting strategies
- Appropriate engagement of and communication with the legal department
- Understanding where appropriate of using bonds and guarantees as part of contracting strategy
- Control of change
- Use of modern dispute resolution techniques
- Chosen method of improving relationships with suppliers and contractors as a result of reducing conflict
