Project Planning, Scheduling*

*16 - 20 November 2026
Vienna (Austria)*

Training Course: Project Planning, Scheduling

Training Course code: MA4104 From: 16 - 20 November 2026 Venue: Vienna (Austria) - Training Course Fees: 6050 € Euro

Introduction

Effective project planning and scheduling are critical to delivering projects on time, within budget, and to the required quality standards. This program, developed by [Global Horizon Training Center](#), provides participants with the essential tools and techniques to plan, organize, and control project activities efficiently.

The course focuses on developing structured project plans, defining work scopes, allocating resources, and building realistic schedules. Participants will gain practical knowledge of scheduling methodologies and tools to monitor progress, manage delays, and ensure successful project execution.

Course Objectives

By the end of this program, participants will be able to:

- Understand the fundamentals of project planning and scheduling
- Develop Work Breakdown Structures WBS
- Define project activities and sequence tasks effectively
- Estimate durations and allocate resources
- Develop and manage project schedules
- Apply scheduling techniques such as Critical Path Method CPM
- Monitor project progress and control timelines
- Identify and manage schedule risks and delays
- Use scheduling tools and software effectively

Target Audience

This program is designed for:

- Project Managers and Coordinators
- Planning and Scheduling Engineers
- Engineers and Technical Professionals
- Operations and Maintenance Managers
- PMO Professionals
- Anyone involved in project planning and execution
