Conference: Cost Accounting Techniques & Skills For Businesses & Industries

Conference code: CO9370 From: 13 - 17 September 2026 Venue: Cairo (Egypt) - Conference Fees: 4100 € Euro

Introduction

This interactive seminar enhances skills in financial statement analysis, investment appraisal, and performance measurement, aiming to boost growth and profitability. Participants will learn to identify and address problem areas while managing risks in today's uncertain environment. The seminar covers the value of financial reports, key financial information for management, and tools for evaluating performance. It also focuses on evaluating investment proposals and managing financial risks. Practical case studies will help delegates apply their learning to real-world business challenges.

Objectives

- Read and understand their organization's Annual Financial Report
- Evaluate their firm's financial performance
- Understand and use analytical tools and techniques in practical case-study situations.
- Identify business risks, and consider how these should be managed.
- Appreciate the importance of new investments in maintaining growth and competitiveness, and how these investments should be evaluated.
- Improve their management skills and increase their value to the organization
- Understand capital investment decisions
