Training Course: Fast Moving Consumer Goods Analytics Framework

Training Course code: PU234571 From: 9 - 20 August 2026 Venue: Manama (Bahrain) - Training Course Fees: 7350 € Euro

Introduction

Effective use of analytical capabilities allows FMCG companies to navigate and benefit from the key trends impacting the industry. In the Marketing/Sales process of the FMCG value chain, analytics are essential for improving commercial performance and customer-centric strategies. This 10-day program focuses on leveraging FMCG analytics to enhance decision-making, optimize operations, and improve performance across various FMCG functions.

Objectives

By the end of this program, participants will be able to:

- Address the unfulfilled economic recovery for core consumer segments.
- Utilize health, wellness, and responsibility as the foundation of brand loyalty.
- Navigate the pervasive digitization of the purchase path.
- Understand the proliferation of customization and personalization in FMCG.
- Manage continued resource shortages and commodity price volatility.

Target Audience

This program is designed for:

- FMCG professionals in marketing, sales, manufacturing, and logistics.
- Supply chain, marketing, and data managers.
- Business and operations managers.
- Procurement managers.
- Executives and senior managers looking to leverage analytics for better decision-making.
- Anyone interested in FMCG analytics and improving organizational performance through data-driven insights.
